

Online Training Course: Flow Measurement

Benefit from the KELTON experience.

Learn from the experts from the comfort of your desk. Join KELTON, in partnership with Euroloop Calibration, for their renowned flow measurement of hydrocarbon training course.

Online Training Modules.

Delivered live via a series of online modules, the training covers:

- Module 1: Introduction to flow measurement
- Module 2: Common considerations in hydrocarbon liquid and gas systems
- Module 3a: Considerations in hydrocarbon liquid systems
- Module 3b: Considerations in hydrocarbon gas systems
- Module 4: Virtual tour of Euroloop Calibration's facilities

Continuing Professional Development.

Delegates attending the KELTON accredited online flow measurement training course can request a CPD Certificate of Attendance. This record can be used to support the CPD requirements from your professional body, institute or employer.

>50 successful allocation projects
>2,500 successful audits
>5,000 individuals trained
>6,000 software installations
